RURAL FIRE SERVICE (RFS) ASSETS THE "PROPERTY" OF COUNCILS**

Meeting	Council	26 July 2022
Submitted by	Cr Ian Tiley	
Attachments	Nil	

SUMMARY

This minute informs Council of the recent NSW Auditor General reiteration of the State Government determination that Rural Fire Service (RFS) assets are the "property" of councils, who must therefore absorb all depreciation costs. A strong course of action for Council is proposed as requested by LGNSW.

PROPOSED MOTION

That Council

1. Note the latest advice from LGNSW and
2. Advise the NSW Audit Office, as requested by Local Government NSW, that Council will not conduct the stocktake of RFS assets and will not record Rural Fire Service assets on Council's financial statements.
3. Requests the NSW Government acknowledge rural firefighting equipment is controlled by and the property of the Rural Fire Service.

SUMMARY

The intent of this Minute is to secure Councils support, firstly for discovery of the locations of Councillor and staff honour boards of the former Councils located in the Clarence Valley, thereafter to restore the discovered Boards as required, and finally to instal them in suitable agreed locations, as a mark of respect and acknowledgement to those who have served local government and to their families and the community.

PROPOSED MOTION

That Council

1. Request the discovery of the locations and condition of Councillor and staff honour boards of the former Councils in the Clarence Valley with a report to be thereafter provided to Council on findings.
2. Report canvass suitable locations to house the discovered Boards in consultation with local museums, public hall committees and the Clarence community and also provide an estimate of cost of the project.

ITEM 07.22.165 2022 LGNSW ANNUAL CONFERENCE - MOTION FOR CONSIDERATION - ENVIRONMENTAL OFFENCES

Meeting	Council	26 July 2022
Directorate	General Manager	
Prepared by	Manager Environment & Regulatory Services, Scott Lenton	
Attachments	Nil	

SUMMARY

This report provides information and justification for suggested motions for presentation at the 2022 LGNSW Annual Conference. Council established the Environment and Regulatory Services Section in 2021 with the aim to raise the priority given to the environment in Council's decision-making and operations and the recommendations of this report are consistent with that aim. The recommended motions seek to improve the ability for Council to manage use of public places such as public road reserves, parks and reserves, and take appropriate enforcement action when necessary. The motions relate to the *Local Government Act 1993* and the *Roads Act 1993*, both of which are core legislative instruments relevant to business administered by all NSW local Councils.

OFFICER RECOMMENDATION

That Council submit the following motions for consideration at the 2022 LGNSW Annual Conference:

1. That Local Government NSW requests the NSW Government to complete a review of the *Local Government Act 1993* and *Local Government (General) Regulation 2021* to increase the opportunity for local Councils to issue penalty notices of appropriate value for offences causing environmental damage to public places, including but not limited to, wilful damage to trees pursuant to section 629(1) of the Act and increase penalty notice value for the offence of unlawfully remove a plant under section 629(2) of the Act; and
2. That Local Government NSW requests the NSW Government to complete a review of the *Roads Act 1993* and *Roads Regulation 2018* to provide the opportunity for local Councils to issue penalty notices of appropriate value (\$2200 min) and increase maximum penalties imposed via Local Court for offences related to the failure to obtain consent for actions under section 138 of the *Roads Act 1993*.

MOTION

That Council submit the following motions for consideration at the 2022 LGNSW Annual Conference:

1. That Local Government NSW requests the NSW Government to complete a review of the *Local Government Act 1993* and *Local Government (General) Regulation 2021* to increase the opportunity for local Councils to issue penalty notices of appropriate value for offences causing environmental damage to public places, including but not limited to, wilful damage to trees pursuant to section 629(1) of the Act and increase penalty notice value for the offence of unlawfully remove a plant under section 629(2) of the Act; and
2. That Local Government NSW requests the NSW Government to complete a review of the *Roads Act 1993* and *Roads Regulation 2018* to provide the opportunity for local Councils to issue penalty notices of appropriate value (\$2200 min) and increase maximum penalties imposed via Local Court for offences related to the failure to obtain consent for actions under section 138 of the *Roads Act 1993*.

COUNCIL RESOLUTION - 07.22.165

Pickering/Johnstone

1. That Council submit the following motion for consideration at the 2022 LGNSW Annual Conference
 - a. That Local Government NSW requests the NSW Government to complete a review of the *Local Government Act 1993* and *Local Government (General) Regulation 2021* to increase the opportunity for local Councils to issue penalty notices of appropriate value for offences causing environmental damage to public places, including but not limited to, wilful damage to trees pursuant to section 629(1) of the Act and increase penalty notice value for the offence of unlawfully remove a plant under section 629(2) of the Act; and

ITEM 07.22.166 2022 LGNSW ANNUAL CONFERENCE - MOTION FOR CONSIDERATION - SEWER & WATER OFFENCES

Meeting	Council	26 July 2022
Directorate	General Manager	
Prepared by	Manager Water Cycle, Greg Mashiah	
Attachments	Nil	

SUMMARY

This report provides information and justification for suggested motions to be presented at the 2022 LGNSW Annual Conference. While Sections 634 to 640 of the Local Government Act lists a range of sewer and water offences, the maximum penalties for these offences is frequently an order of magnitude lower than similar offences against state government owned utilities. The only offence for which a Penalty Infringement Notice (PIN) can be issued is for misuse of water; all other sewer and water offences need to be prosecuted. Even were Council successful in a prosecution and received the maximum penalty and costs, solicitors have advised it is likely Council would be out of pocket by thousands of dollars.

Representations made to OLG to date to address this issue have been unsuccessful. It is therefore recommended that Council propose a motion to the LGNSW Conference requesting the association lobby the state government to review sewer and water penalties under the Local Government Act. The proposed motion was considered at and endorsed by Council's Audit Risk and Improvement Committee meeting of 23 June.

OFFICER RECOMMENDATION

That Council submit the following motion for consideration at the 2022 LGNSW Annual Conference
That the Association lobby the state government to:

1. Increase penalties for sewer and water offences under the Local Government Act to a similar level as applies to state government owned water utilities, including higher offences for corporations compared with individuals,
2. Add an additional offence of "wrongfully take, use or divert any water" to Section 636 of the Local Government Act, noting that this is currently an offence which applies for state government owned water utilities, and
3. Modify Schedule 1 of the Local Government (General) Regulation to extend the issuing of Penalty Infringement Notices (PIN) to all sewer and water offences, again noting that state government owned water utilities can issue PINs for most offences under their legislation.

MOTION

That Council submit the following motion for consideration at the 2022 LGNSW Annual Conference
That the Association lobby the state government to:

1. Increase penalties for sewer and water offences under the Local Government Act to a similar level as applies to state government owned water utilities, including higher offences for corporations compared with individuals,

<i>Address</i>	19 Through Street, South Grafton (Lot 2 DP 558366)
<i>Submissions</i>	Nil.

Development Application SUB2022/0024 seeks approval for a two (2) lot subdivision of 19 Through Street, South Grafton, being Lot 2 DP 558366. The Applicant has sought approval for a variation under Clause 4.6 – exceptions to development standards of the *Clarence Valley Local Environmental Plan 2011* to vary the minimum lot size of 1,000m² in the B5 Business Development zone.

The variation sought is greater than 10% which is outside of Council staff delegations, therefore the application is forwarded to Council for determination. The report provides an assessment of the application and a recommendation for Council's consideration.

OFFICER RECOMMENDATION

That Council:

1. Approve the requested variation to Clause 4.1 Minimum Subdivision Lot Size of the *Clarence Valley Local Environmental Plan 2011* under Clause 4.6 – Exceptions to Development Standards to enable creation of proposed Lot 202 (being 790m²) which is below the minimum 1000m² lot size of the B5 Business Development zone., being a variation of 20.9%; and

Council has received Development Application DA2021/1343 for a crematoria facility at 873 Armidale Road, Braunstone, being Lot 17 DP817400. The facility will include an office, bathroom, two chimney stacks and an area for delivery and transfer. The subject site is within the RU2 Rural Landscape Zone and the facility will be located over a leased area of 10,580m² on the 103.9 hectare property.

During the exhibition period, nine (9) submissions and a petition signed by twenty (20) people objecting to the proposal was received. The majority of the submissions raised concerns as to the compatibility of the proposal with the surrounding area and impacts on amenity. The matters raised are discussed in detail in the Key Issues section of this report. Through limitations on the use to a maximum of three (3) days per week and the limited hours of operation, prohibiting advertising signage, as well as a requirement to provide landscape screening, the development is recommended for approval subject to the imposition of the draft Advices and Conditions contained within Schedule 1.

This report provides an assessment of the application and a recommendation for Council's consideration

<i>Applicant</i>	A Fletcher & Associates Pty Ltd

A Development Application for the redevelopment of the Fishing Haven Caravan Park, Palmers Island has been received. The caravan park is located on RU1 and RU2 zoned land, within the Palmers Island Riverbank Erosion Planning Map identified in Clause 7.6 of the Clarence Valley Local Environmental Plan 2011 (the CVLEP), Part P – Palmers Island Riverbank Controls of the Rural Zones Development Control Plan (the DCP) and the Palmers Island River Bank Erosion and Assessment and Management Plan, July 1992.

The development includes the reconfiguration of the cabin and caravan sites and new internal road network to reduce the overall number of sites from 54 to 53 and to better manage risk from riverbank erosion. A key issue is the consideration of 16 sites proposed within Precinct 1 of the DCP's Palmers Island Riverbank Controls, being the area between the riverbank and the immediate management line. The Applicant has provided current geotechnical advice regarding the riverbank erosion risk to the proposed sites which concludes the risk is 'acceptable'.

The waterfront lots of the caravan park have a restriction on title requiring that no building, camping, caravans or tents are permitted on the land. Modification of these restrictions on title is also requested to allow the proposed re-development of the park.

The assessment of the application has considered the relevant planning instruments and development controls, including assessment of the risk from riverbank erosion and flooding. Overall, Council officers recommend approval for the following reasons:

- The proposal relocates and reduces the number sites away from the riverbank to lower risk 'acceptable' areas based on geotechnical advice
- The existing approval for the caravan park exposes people to higher risks from riverbank erosion
- Sites within the riverbank erosion area will be required to be removed should the riverbank failure occur within 18 metres of a site
- All proposed buildings are moveable dwellings or relocatable cabins
- The recommended conditions of consent and restriction-on-title properly manages risk to meet the CVLEP and DCP requirements.
- The caravan park comprises a single management entity which assists in ensuring compliance with the recommended conditions, including an updated flood evacuation plan.

Related to the development application, four (4) cabins have been located on four (4) of the proposed sites prior to an approval being issued. Council staff have sought an explanation from the applicant prior to this report being submitted to a Council meeting. A letter from the applicant dated 4 July 2022 is attached to this report outlines the reasons by the owners and submits that no compliance action is warranted, particularly if the Council approves the park reconfiguration.

This report is submitted to Council for consideration and provides a recommendation for determination.

OFFICER RECOMMENDATION

That Council:

1. Approve Development Application DA2021/0322 subject to the draft Advices and Conditions attached to Schedule 1 of this report;
2. Agree to modify and add new restrictions on title on lots to allow camping, caravan and cabins sites on Lots 6, 7, 8, 9, 11, 12, 13 and 14 DP209170 and 101 DP1268131, subject to the risk management provisions in accordance with draft condition 6;
3. Note it is acting in 'good faith' to maintain Statutory Immunity under Section 733 of the *Local Government Act 1993* in making a decision based on:
 - a. The 'acceptable' risk assessments undertaken on riverbank erosion by the comprehensive Royal Haskoning investigation and assessment report in July 2018 and Geotechnical review by JK Geotechnics in May 2022; and
 - b. The imposition of conditions on DA2021/0322 to appropriately manage and improve the risk for temporary tourist and visitor accommodation from natural hazards and consideration of climate change impacts.

COUNCIL RESOLUTION - 07.22.151

Pickering/Johnstone

That Council:

1. Approve Development Application DA2021/0322 subject to the draft Advices and Conditions attached to Schedule 1 of this report;
2. Agree to modify and add new restrictions on title on lots to allow camping, caravan and cabins sites on Lots 6, 7, 8, 9, 11, 12, 13 and 14 DP209170 and 101 DP1268131, subject to the risk management provisions in accordance with draft condition 6;
3. Note it is acting in 'good faith' to maintain Statutory Immunity under Section 733 of the *Local Government Act 1993* in making a decision based on:
 - a. The 'acceptable' risk assessments undertaken on riverbank erosion by the comprehensive Royal Haskoning investigation and assessment report in July 2018 and Geotechnical review by JK Geotechnics in May 2022; and
 - b. The imposition of conditions on DA2021/0322 to appropriately manage and improve the risk for temporary tourist and visitor accommodation from natural hazards and consideration of climate change impacts.
4. That the following modified conditions of consent apply subject to:
 - a. Condition 1 being amended to reference drawing 'Plan of proposed Cabin and Van Site Layout', drawn by A Fletcher & Associates Pty Ltd, dated 17/05/22, drawing no. 9358 and revision B
 - b. Condition 5 being amended to read:

Within 8 weeks of a 10% Average Exceedance Probability (AEP) flood event occurring (and any flood in excess of a 10% AEP event) the applicant is to undertake a site-specific geotechnical investigation/survey of the Fishing Haven Caravan Park riverbank to assess any scouring and/or steeping of the riverbank that has occurred, and provide a copy of this assessment to Council. If any scouring and/or steeping of the riverbank has occurred the applicant is to undertake a detailed site-specific geotechnical investigation report on the structural stability and integrity of the existing riverbank embankment, sub-strata geology and adjacent soil profile and an assessment of risk to the Fishing Haven Caravan Park. The detailed site-specific geotechnical investigation report shall be submitted to Council within 3 months after the 10% AEP flood event (and any flood in excess of a 10% AEP event). The applicant shall implement any recommendations from the geotechnical investigation report, subject to Council approval.
 - c. Condition 6 being amended to read:

At any time should riverbank erosion result in a site becoming within 8 metres of the 'Patterson Line' identified under the Patterson Britton and Partners Pty Ltd Report 1992 (being the landward limit of the zone of immediate high risk, including 1% annual exceedance probability, including toe scour, identified in the July 1992 Patterson Britton & Partners report) the consent for those sites will cease and any buildings or structures are to be removed at the landowner's expense.

- d. condition 18 be amended to read; onsite detention (OSD) and water quality control systems need not be provided until a building is occupied on the lot, but the SWMP must demonstrate NorBe by calculation and details acceptable to Council. A section 88e easement, 88b easement, positive Covenant or restriction-as-to-user encumbrance for stormwater management on the land title of the existing allotments is required to ensure future building development compliance.**
- e. condition 21 be amended to read; A detailed Erosion and Sediment Control Management Plan for each stage of the redevelopment process must be submitted.**
